### Waytoweb - Full Stack Intern

Sep 2024 – Feb 2024

- Completed a hands-on MERN Stack Development internship, gaining experience in building full-stack web applications using MongoDB, Express.js, React, and Node.js. Collaborated on real-world projects, enhancing skills in RESTful API development, front-end design, and backend integration.

## PROJECTS

### Fitbite - [Live](#)

June 2024 – Aug 2024

- GitHub - [Link](#)
- Developed **FitBite**, a diet recommendation web application using the MERN stack, aimed at providing personalized meal plans based on user preferences and health data.
- Integrated nutrition APIs to offer dynamic suggestions and implemented user authentication and responsive UI for a seamless experience.

### Suchi Tracker

June 2024 – Aug 2024

- GitHub - [Link](#)
- Designed and developed a robust full-stack inventory and sales management system tailored for Anganwadi centers.
- PHP for backend logic, SQL for secure and structured data storage, and CSS for responsive and user-friendly interfaces.
- Streamlined tracking in Anganwadi using custom user interfaces.
